## Release Notes

### AV Switcher Driver – Autonomic eSERIES – IP version 1.00.001

## Driver

---

This release note is for the AV Switcher Crestron Dynamic Driver for the Autonomic eSERIES audio switcher. This switcher has 32 inputs and 40 room outputs.

## Notes and Recommendations

---

Any notes or recommendations to be made.

## System Requirements and Dependencies

---

Provide any minimum versions of applications required to run your driver.

- I.E. Crestron Home v3.012

## Installation/Upgrade Instructions

---

Installation and dealer-facing configuration instructions.

TCP/IP settings	Value
IP Address / Host Name	10.2.176.47
IP Port	17037

You will need to enter the appropriate IP address.

There should not be any need to change the port number.

## End-User Experience

---

This is a driver and as such there is no end user experience.

## Limitations/Known Issues

---

Due to Crestron Home issues, there is no feedback at present if treble is being changed.

## Supported Features

---

## Test Environment

---

List the environments where this driver has been tested and any control system firmware versions used.

- I.E. Crestron Home v3.005.1234

## Supported Models

---

Autonomic eSERIES amps
