 <b>IP Address</b> IP Address of Kohler DTV+ Controller	<input type="text" value="10.1.176.255"/>
 <b>Check to make Visible</b> Indicates if the extension is visible on the home page	<input type="checkbox"/>
 <b>Preset 1 Name</b> Preset 1 Name, if filled in establishes the preset name. If left blank the preset will be ignored.	<input type="text" value="Preset 1"/>
 <b>Preset 2 Name</b> Preset 2 Name, if filled in establishes the preset name. If left blank the preset will be ignored.	<input type="text" value="Preset 2"/>
 <b>Preset 3 Name</b> Preset 3 Name, if filled in establishes the preset name. If left blank the preset will be ignored.	<input type="text" value="Preset 3"/>
 <b>Preset 4 Name</b> Preset 4 Name, if filled in establishes the preset name. If left blank the preset will be ignored.	<input type="text" value="Preset 4"/>
 <b>Preset 5 Name</b> Preset 5 Name, if filled in establishes the preset name. If left blank the preset will be ignored.	<input type="text" value="Preset 5"/>
 <b>Preset 6 Name</b> Preset 6 Name, if filled in establishes the preset name. If left blank the preset will be ignored.	<input type="text" value="Preset 6"/>

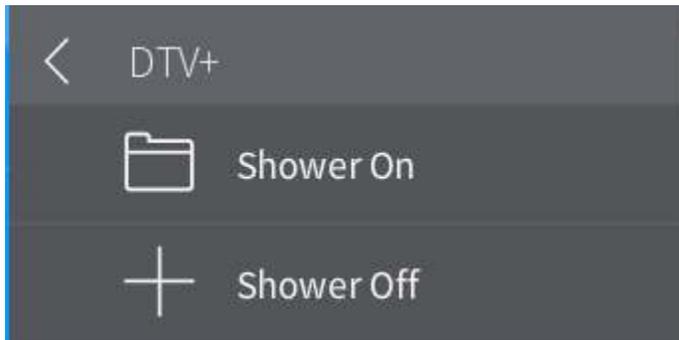

**License Key** – this extension requires a paid license key which can be obtained from <https://cpllc.net/?product=kohler-dtv>. For testing purposes, this extension will function 100% for 2 hours. Rebooting will reset the two hours.

**Starting PIN Code** – Starting PIN numeric code. Leave blank if PIN not required.

**Check to make Visible** – Checked if you want the extension to display on the home page.

**Preset (1-6) Name** – Preset name if one exits. If left blank, the preset will not be displayed.

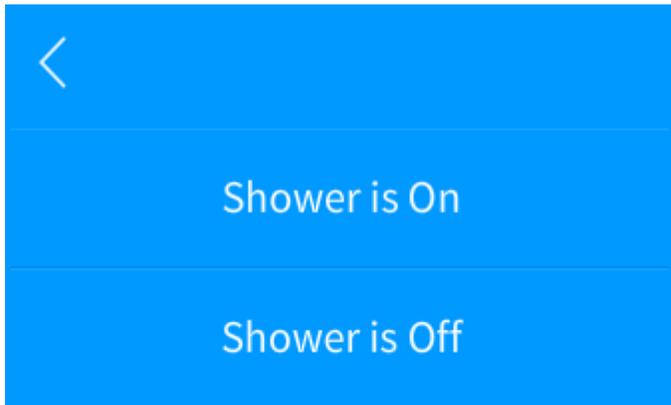

## Actions

**Shower Off** – Turn the shower off.

**Shower On** – Turn the selected shower preset, by name, to turn shower on.

## Events

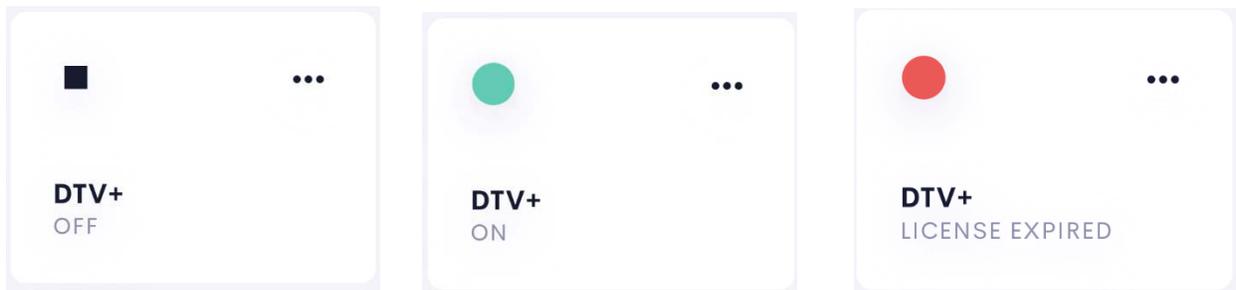

**Shower is On** – shower has been turned on

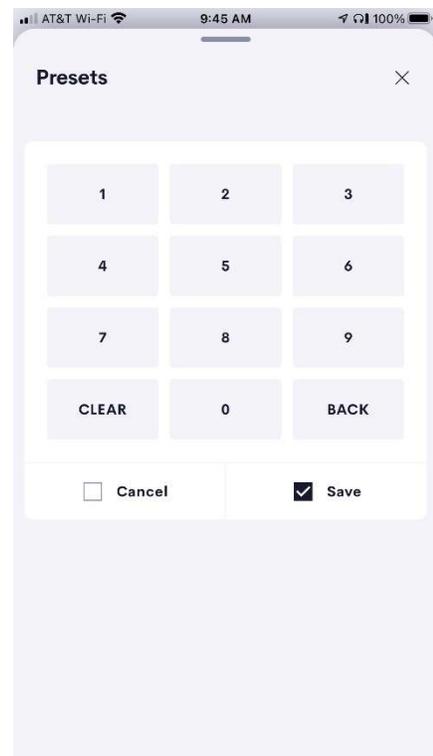

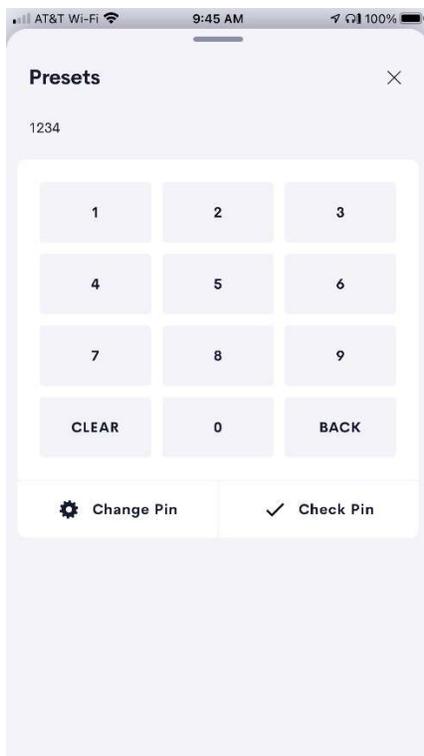

**Shower is Off** – shower has been turned off

## End-User Experience

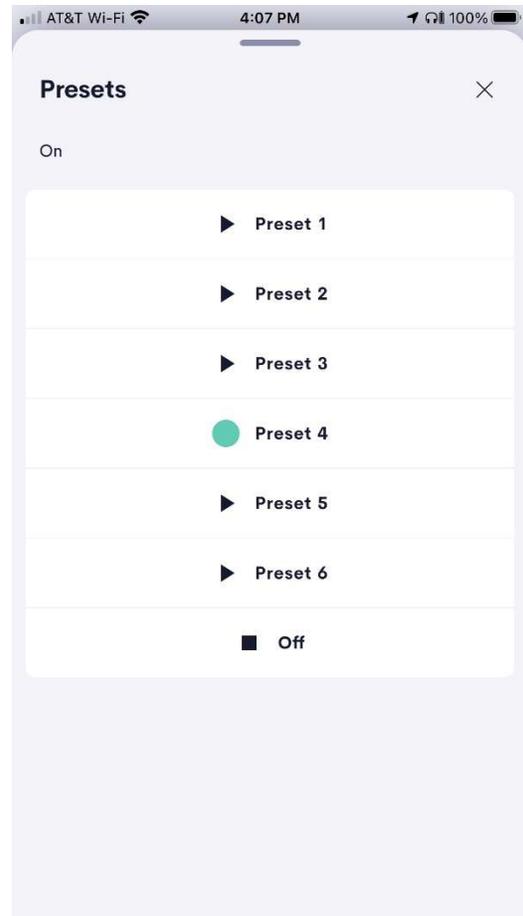

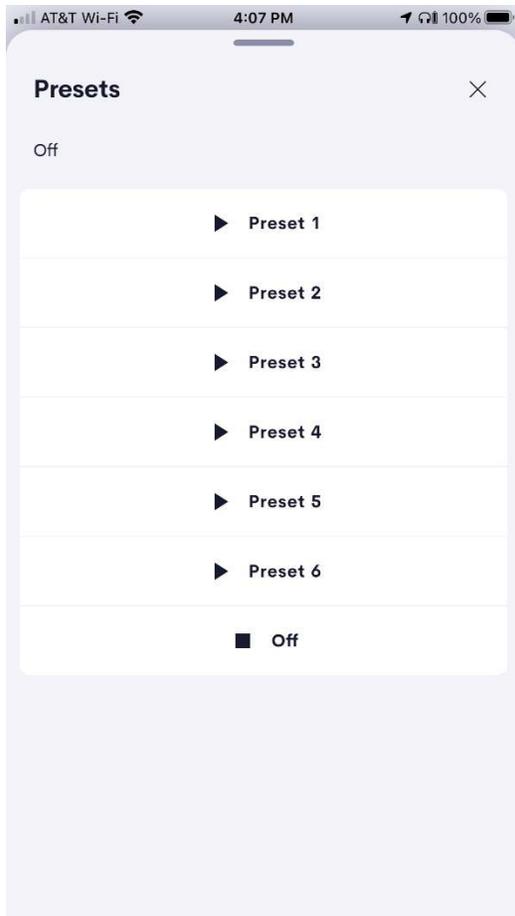

---

The above tile from left to right so the Off, On, and License expired status. If the shower is running, pressing the tile will turn off the shower. Pressing the “...” will either display the pin code or the presets selection page.

If the PIN code has been enabled, prior to being able to select the preset a pin code will need to be entered. Should the pin code need to be changed, selecting Change Pin after entering a valid Pin will bring up the right screen. Enter another Pin code and press SAVE to change the pin code.

Up to 6 presets can be configured. The running preset will have a green dot displayed. If Off, there will not be any green dots displayed.

## Limitations/Known Issues

---

- No known limitations or issues

## Supported Features

---

- Not applicable

## Test Environment

---

- CP4-R and MC4-R
- Crestron Home v3.005.0054
